How Much Grains Do I Need?

An average older adult needs about 5-7 ounces a day.
At least half of those grains should be whole.

What Foods are Included in This Group?

Any food that is made from wheat, rice, oats, cornmeal, barley, and other cereal grains.

Common examples include: Bread, cereal, pasta and rice.

Helpful Tips

1. Try 100% whole-grain snack crackers.
2. Consume foods fortified with vitamin B12, such as fortified cereals.
3. Try rolled oats or crushed unsweetened cereal when breading chicken, fish and vegetables.
4. Try brown rice instead of white rice. Whole grains add a longer fullness so we actually eat and snack less.

EXERCISE ACTIVITY

Knee Curl

Walking and climbing stairs are easier when you do both the Knee Curl and Leg Straightening exercises. For an added challenge, you can modify the exercise to improve your balance. (See Progressing to Improve Balance.)

1. Stand behind a sturdy chair, holding on for balance. Lift one leg straight back without bending your knee or pointing your toes. Breathe in slowly.
2. Breathe out as you slowly bring your heel up toward your buttocks as far as possible. Bend only from your knee, and keep your hips still. The leg you are standing on should be slightly bent.
3. Hold position for 1 second.
4. Breathe in as you slowly lower your foot to the floor.
5. Repeat 10-15 times.
6. Repeat 10-15 times with other leg.
7. Repeat 10-15 more times with each leg.

TIP

As you progress, you may want to add ankle weights.
