

DAY
#8

Can you help me
find a can of corn?

Challenge your family to reduce food waste

Did you know the average four-person household throws away more than \$1,500 in food every year? And we don't eat about 25% of the food we bring home. Families can dramatically minimize this waste just by paying more attention to what's being tossed.

Color this picture, then hang it by your fridge or trash can as a reminder to pay attention to the food waste in your home.
